

BUDAPEST BRITISH INTERNATIONAL SCHOOL

Primary EAL Provision 2024/25

At BBIS, our programme of English as an Additional Language (EAL) teaching is a key feature of welcoming an increasingly diverse, international community to the school. Our EAL programme is organised by qualified teachers who support students where English is not their first language, by providing an intensive, targeted program.

Each student is assessed on entry, and it is identified if EAL support is required. If so, we provide "pull-out" lessons, which take place during the school day and a member of the EAL team will "push-in" to the classroom to support the students directly in accessing the PYP curriculum. All English language learners are assessed at the end of each term to evaluate their progress and determine whether they still require the same level of EAL support going forward.
